Honorable Commissioner for Patents

P.O. Box 1450

Sir:

Appellant herein appeals from the Examiner's final rejection of the pending claims. Appeal is timely and proper pursuant to 37 CFR § 1.191(a). Atty. Docket No. 4380-105

REAL PARTY IN INTEREST

This application is assigned to EcoSmart Technologies, Inc., by assignment recorded on July 11, 2002, at Reel 013087, Frame 0792.

RELATED APPEALS AND INTERFERENCES

There are no related appeals or interferences.

STATUS OF CLAIMS

Claims 1, 7, 17, 20 and 140-145 are pending. Claims 2-6, 8-16, 18, 19, and 21-139 have been canceled without prejudice or disclaimer of the subject matter they contain. A copy of the pending claims (as amended in the concurrently filed Amendment After Final Rejection) is found in APPENDIX A attached hereto.

STATUS OF AMENDMENTS

All amendments filed in this case before May 9, 2005, have been entered. An Amendment After Final Rejection is being concurrently filed with this Appeal Brief to overcome the grounds of rejection as set forth in the final Office Action from which this appeal was taken.

ISSUES

1. Should the currently pending claims remain rejected under 35 U.S.C. §§ 102(b) and 103(a), as being unpatentable over the prior art applied in the final Office Action?

GROUPING OF CLAIMS

Under 35 U.S.C. § 282, Appellant submits that the patentability of any one appealed claim is not solely predicated on the patentability of the remaining appealed claim(s). Each claim of this patent application is separately patentable and upon issuance of a patent will be entitled to a separate presumption of validity. Pursuant to 37 C.F.R. § 1.192(5), each pending claim(s) will separately stand or fall in this appeal.

THE ARGUMENT

Appellant's responses to each of the rejections raised in the final Office Action against the currently pending claims (1) are set forth in the concurrently filed Amendment After Final Rejection and (2) are incorporated herein by reference in their entirety. Reconsideration and reversal of the pending rejections are respectfully requested.

CONCLUSION

In view of the foregoing, Appellant submits that there exists no factual basis to support a conclusion that the present claimed subject matter fails to satisfy the requirements of 35 U.S.C. §§ 102(b) or 103(a) in view of the prior art applied in the final Office Action. It is respectfully submitted that the rejection of the claims on appeal is in error and should be reversed.
